PROFILE

Aspiring Computer Science Engineer with an interest in building modern applications and exploring cloud computing technologies. Enthusiastic about creating user-focused solutions and learning scalable architectures that address real-world needs. Seeking opportunities to apply my skills, gain hands-on experience, and grow within a collaborative and innovative environment.

EDUCATION

BTech in Computer Science

SRINIVAS UNIVERSITY ,MANGALORE

2022–Present

9.29 CGPA

Pre-University Course

Anand Ashram Composite PU College, Bhatkal

2020–2022

82.66%

Secondary School Leaving Certificate (SSLC)

Anand Ashram Highschool, Bhatkal

2019–2020

95%

INTERNSHIPS

SAMAGRA TECHNOLOGIES

Full Stack Development Intern – Contributed to end-to-end web development projects and built a cross-platform hotel booking app using Flutter and Firebase. Implemented authentication, real-time database integration, hotel search, booking management, payment integration, and responsive UI design.

ANALOGICA SOFTWARE DEVELOPMENT SOLUTIONS

Full Stack Development Intern – Developed an All-in-One LMS and Intern Management Dashboard to manage students, interns, trainers, courses, and workshops. Implemented role-based access control, real-time tracking of attendance and assignments, progress monitoring, and automated certificate generation.

AREA OF INTEREST

- Devops
- Cloud Computing
- Data Science
- Flutter

HOBBIES

- Mehendi art
- Listening to music
- Drawing
- Cooking

PROJECTS

All-in-One LMS, Workshop & Intern Management Dashboard

Developed an All-in-One LMS, Workshop, and Intern Management Dashboard that centralizes the management of students, interns, trainers, courses, and workshops in a single platform. It includes role-based access, real-time tracking of attendance and performance, automated evaluations, and certificate generation, improving transparency and operational efficiency.

Hotel Booking App using Flutter

Developed a hotel booking app using Flutter, integrating a user-friendly UI with real-time booking functionality. Implemented features such as hotel search, room selection, booking confirmation, and secure payment integration. Utilized firebase for authentication and database management, ensuring seamless user experience.
